

Grow your teaching practice with **Maths — No Problem!**

Expert-led training. Proven resources. Ongoing support.

Here's what you can expect when teaching with MNP:

- Proven strategies that develop a deep and sustainable understanding of maths.
- A creative and collaborative approach to maths that ensures every learner can discover how they learn, what works for them and what keeps them engaged.
- Pupils that can think through maths problems systematically, instead of relying solely on memorisation techniques.
- A structure that builds on what came before — pupils continually build on the skills and knowledge that they already possess.
- Increased confidence in specialist and non-specialist educators to help guide pupils in the right direction.
- A maths mastery approach based on over 30 years of research and rigorous in-school testing and refinement.

Rethinking Mathematics

MNP is way more than a textbook. When you teach with MNP, you'll get access to proven maths mastery strategies and a network of resources that set pupils up for success in maths — lesson after lesson, year after year.

From expert-led training to proven resources, here's how MNP gives every school a maths boost:

- **Train with world's best:** whether it's an intro course or an in-depth problem solving workshop, MNP Courses feature world-renowned trainers, and give you the tools it takes to deliver world-class maths teaching in your school.
- **Join a growing community:** education never stands still — and neither do we. From fresh products like the Mathsteasers Booklet Series to ongoing opportunities for community support, we're always looking for new ways to make maths better for everyone.
- **Teach with proven techniques:** give pupils an intuitive grasp of maths with go-to strategies including the CPA approach, bar modelling, number bonds, effective use of questioning, and more.
- **Reach new heights with MNP resources:** award winning textbooks, step-by-step lesson guides and online CPD videos help keep your school's maths momentum going for years to come.
